EDUCBA

IT Automation Specialist & Bash Scripting Expert

Sreeshma S R

has successfully completed the online Specialization

Linux Bash Scripting & Shell Programming

In this Specialization, learners gained practical skills in Linux Bash scripting and shell programming, progressing from foundational command-line concepts to advanced automation techniques. They developed expertise in creating scripts, applying control structures, handling files, processing data with Awk, and troubleshooting effectively. The program emphasized hands-on projects that simulated real-world tasks in system administration, DevOps, and IT automation, ensuring learners could apply their new skills to streamline workflows and boost productivity.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
